### Job description

As a **Technical Evangelist** at Avangate, part of Product Management team, your main responsibilities will be to translate technical specifications into high quality documentation and learning content.

#### Role Overview

- Write, edit and proof hard copy online documents for consistency: platforms user guides, as well as online help systems.
- Contribute to the content strategy with other stakeholders including members of the Product, Software Engineer, QA, UX, Support, Sales and Marketing teams.
- Translate technical details into benefits for the user and best practices.
- Lead multipurpose training and learning programs to optimize anything from onboarding to feature uptake.
- Produce video and interactive tutorials to offer alternatives to more traditional content. Help with live interactive demos.
- Demonstrate information architecture and content creation best practices, keeping up with the latest tooling and trends.

Additional responsibilities may include:

- Provide feedback on product functionality, APIs and documentation
- Organizing and running internal and external training events

#### Main requirements

- At least 3 years of experience of technical writing / web copywriting and persuasive presentation skills
- Impeccable spelling and grammar
- A deep understanding of consumers and what motivates them online, knowledge of customer experience best practices
- Great research, organizational and learning skills
- Skills in graphics, screen capturing, interactive demos, keen eye for detail
- Great communication and presentation skills
- Knowledge of, or experience with web applications or the eCommerce industry is considered a plus.

#### Job Benefits:

- A dynamic team spirit in an international work environment and exciting growth phase;
- Skills and performance based salary and bonus;
