If you are looking to further build your career in one of the top technical companies in Romania, we have good news for you: We are hiring a Technical Writer proficient in English!

In this role you will:

- Write different types of manuals / online content in a clear and concise manner; These could be USER guides, Installation manuals, API guides etc;
- Be technically savvy in the areas of documentation, by being hands-on with the features that is being dealt with;
- Be capable of researching for relevant information independently;
- Be proficient in usage of documentation tools & systems and aware of new technologies in documentation, industry best practices;
- Deliver the work allocated in time and with quality;
- Adopt the right kind of communication mechanism to receive inputs (demos / review comments) from cross functional team;
- Be an excellent team player with good inter personal skills within the team and with cross-functional team members;

Skills required:

- Bachelor's Degree in a related field required;
- 2 years in a similar position – highly desirable;
- Strong research skills;
- Good interpersonal skills that include the ability to effectively communicate in both writing and verbally;
- Excellent written, proofreading, and verbal communication skills;
- Must be detail oriented, organized, and have the ability to multi-task;
- Must be adaptable to changes;
- Ability to demonstrate supportive relationships with peers, clients, partners, and corporate executives;
- Must be flexible with a “can do” attitude and have the ability to remain professional under high pressure situations;
- Ability to retain and protect confidential material;
- Proficiency in English is a must.
