QS Quacquarelli Symonds was founded in 1990 and has established itself as the leading global provider of specialist higher education and careers information and solutions. Our activities span across 50 countries, working with over 2000 of the world's leading higher education institutions. We provide services at each key career stage; first degree, Masters, PhD, MBA, and Executive-level.

QS Unisolution () is a subsidiary of QS, offering online software solutions that enhance and complement our renowned events, research and publications. These solutions include MoveIN, an application management system used by universities and business schools to help them engage with potential students and to support candidates who apply online to their programs.

The role will involve (but is not restricted to):

Technical Author:

- Identify the best approach and tools for documenting the product
- Work with technical staff and client services to understand how the product works and how clients use it
- Write high quality, easy to understand material, print or online, for user guides/instruction manuals
- Create illustrations, diagrams and photographs and incorporate them into text
- Create tutorials for users or internal staff
