

Technical Writer (Braşov) la STABIPLAN - BestJobs

We are looking for a technical writer to create, edit, update and maintain our software documentation according to the market standards and formats.

As technical writer on our team, you will be responsible in:

- executing the works entrusted by your manager, in the required quality and deadlines
- writing documentation for StabiCAD 8, Desktop and Web versions: installation manuals, user manuals and use cases for the end-users
- various translations for StabiCAD 8
- managing the execution phases of projects, with a term for each job or part to be executed

Cerinte

- Bachelor's Degree in Technical Communications, Languages, Computer Science or related field
- Excellent knowledge of English
- Strong proven writing ability
- Good core understanding of technology documentation and user manual writing
- Skills in Microsoft Office suite and authoring Adobe applications
- Strong customer focus and an understanding of how documentation is crucial to customers' success
- Good to have exposure to building services (mechanical, electrical and plumbing fields)
- Knowledge of Author IT and SDL Trados Studio can be a plus

Oferta (bonusuri, beneficii)

- A competitive remuneration package, including 13th month salary
- Lunch tickets, Easter and Christmas bonuses
- A 25-day holiday per year
- Teambuilding activities
- Life insurance
- Yearly investments in your training (educational sessions and courses).
