We are looking for a
TECHNICAL WRITER
(1000 EUR / month)

Voxility is an international technology provider offering a wide range of services across its global Internet network, selling exclusively to internet service providers, large websites and cloud & hosting providers. Voxility network connects 12 major data centers across Europe, North America and Asia and it has been ranked in **top 100** largest internet networks on the planet. Some of the biggest websites in Romania rely on Voxility to deliver day-to-day value to their online customers. A major area of development is Internet Security, where **Voxility** is an important technology developer.

We are looking for a **Technical Writer**, who is more resourceful and inspiring than a spring day, willing to produce and edit high quality documentation for Voxility that contributes to the overall success of the business.

You are a **creative team player & technology enthusiast** familiar with various writing types, various mediums and various audiences, ready to embellish Voxility stories with high quality text and documentation.

THE SUCCESSFUL CANDIDATE

- ❑ Must have a balanced mix of geeky and social skills.
- ❑ Proven working experience in technical writing of hardware, software or security documentation.
- ❑ Self-managed individual, with the ability to quickly grasp complex technical concepts and make them easily understandable in text.
- ❑ Has loads of creativity and new ideas to improve any type of text released by Voxility.
- ❑ Would be expected to write compelling and inspiring text on a wide range of topics for both internal company communication and online content distribution. Namely, but not limited to: easy-to-understand user interface text, developer guides, tutorials and how-to articles, text for leaflets and other marketing materials, online articles for social media and other online instances, company blog, text for company website.
- ❑ Must be fluent/"almost native" in written English.
- ❑ An engineering or software programming background would be a plus.
- ❑ Prior technical writer experience (work as a reviewer, technology reporter or writer and/or a track record of hardware, software or security analysis or blogging) is an advantage.
- ❑ Will have a super star team of designers waiting to illustrate his/her text.
